CE declaration

A CE declaration is an official document issued by the manufacturer to confirm that its product complies with EU directives and is therefore authorised to bear the CE marking. The CE marking is a mark that indicates that a product fulfils certain minimum requirements in terms of safety, health protection and environmental protection.

The CE declaration contains information about the product, the manufacturer, the conformity assessment procedures applied and the applicable EU directives. It is important to enable the free movement of goods within the European Economic Area.

In order to guarantee the greatest possible safety for our relevant products, we have them tested at regular intervals by an accredited laboratory. This ensures that they do not contain any hazardous substances that could be harmful to health or the environment.

Do you need a current product-related CE declaration? Please contact us at:
de.productcompliance@avery.com

Yours sincerely,
Avery Zweckform GmbH

Peter Sperl
General Manager
